Pictured above are workers from Joe Groschens' team cutting trees and clearing brush on the Archery Range. VP Rick Loye extends thanks to the 23 hearty members and guests who worked in the dicey conditions to complete needed tasks around the Harris facility. The **November General Membership meeting** is the traditional **election night** for Board members and Officers of GRRRC. Please make an extra effort to come to Kraus-Hatig VFW for this important session. The Board of Directors will meet on the prior evening.

Red Shed Report

Reminder: No Shooting until 9:00 a.m. unless you are hunting. Read the signs!

Attention Campers: The 2009 camping fees are due. If they are not paid by Dec 31, you will not be issued your 2010 membership card, by order of the Board of Directors.

Juniors Note from Jodie Showalter: We will start accepting new **Juniors**

for 2010 in January. We will be ready to meet with them on Thursday, January 7th, 2010. If you want to join or know someone that may be interested in joining in 2010, Please have them meet with us at the American Legion Hall 225 in Forest Lake MN on 01/07/2010. Also if possible, have them send me an e-mail so I know how many applications I will need.

Please send in information and pictures of your shooting events. Unless you tell us, we cannot report it!

After much discussion about the continuance of cast-offs like televisions, mattresses, etc. being brought to the range and discarded, a Motion was made by John Nelson, second by Ray Hoyt to not allow ANYTHING to be brought to the Harris range for disposal. Motion carried. BOD recommends that you find your own method of disposing of discards in your local community. The range is not your garbage pit!

Water at the range has been turned off, and the tractors and Johnnies are winterized to -30 degrees F. Sleep well!

This is a portion of the LIVE ammo picked up at the pistol range. Safety is our first order of business at GRRRC. Be sure you are picking up both spent AND live ammo when you are done shooting anywhere at the range. When the mowers and pieces of equipment move over the ground, live ammo presents a serious safety threat. Lives depend on it.

Reminder: Safety Orange must be worn at the range until December 31, the end of firearm and archery Deer season.

GRRC Board of Directors Meeting 10/19/09 Kraus-Hartig VFW

The President called the meeting to order at 7:03 p.m. on October 19, 2009. Present were Tom Torborg, Rick Loye, Laurie Pekarik, John Nelson, Harry Crump, Dave Secord, Dave Anderson, Ray Hoyt, Kathy Mihulka, Dave Newell, Bill Prock, Steve Shimek, and Larry Sparks. Guests: Dave Holland, Stacy Tamulinas, Ed Pekarik and Kyle Johnson. Excused: Gary Campbell. Absent: Bruce Aune.

The Vice-President led the group in the Pledge of Allegiance. A moment of silence was observed for absent companions and those deployed in the military.

Secretary's Report: Motion to accept as printed in the September newsletter by Harry Crump, second Dave Secord. Carried.

Executive Officer's Report: Absent..

Treasurer's Report: Motion to accept report as given by Harry Crump, second by Rick Loye. Carried.

Necessary committee reports:

Forestry – Larry Sparks. The Forestry Plan that was started a year ago has resulted in a \$2,500 reduction in Harris Range property taxes. Larry presented details for the proposed harvesting of specific species of trees. It was suggested that members interested in forestry and the harvesting of trees at the range to contact him to coordinate this project. NAT

Newsletter – Dave Newell expressed the need for rules to be established for newsletter articles and photos. Recommended by the BOD that we need an editorial disclaimer to shorten articles that are too long, and to look at the website for the article(s) in their entirety.

Old Business:

Ray Hoyt reported a profit of \$1,670 from the Goose Creek Rendezvous. Complete report and monies have been turned in. All enjoyed perfect weather over the weekend. Bottom line was that having the gate closed for the weekend and the use of a specific gate combo did not work.

Thoughts on holding all GMM and BOD at Kraus-Hartig VFW – after discussion, it was decided that summer meetings would continue as usual at the range.

Red Shed up-date – the committee will meet within the next week. They will have a proposal of estimated cost of construction for the Annual Budget Meeting.

2010 renewal process – a separate insert page will be going out in the October newsletter.

Status on 2010 Range Schedule –Safety Range Officer

was absent. However, it was noted that there would be a Scheduling Meeting in the Kraus-Hartig Membership Room on 10/25/09 at 1900hrs
Appointment of new Sergeant at Arms will be taken up at General Membership Meeting on October 20, 2009.

New Business: (from the floor)

Dave Holland – submitting the name of an applicant who requested to be excused from October GMM due to being out of town on business. Motion made by Laurie Pekarik, second by Dave Newell. Motion carried.

Dave Holland – seeking BOD recommendation to submit a bid to hold the 1000 yd Bench Rest Nationals at the Harris Range on September 1,2,3 and 4, 2010. After several details were discussed, a motion made by Dave Anderson, with second by Harry Crump to give approval for Dave Holland to place a bid to host this event. Carried.

Jay Eller – seeking BOD recommendation to hold F-class matches. After discussion it was recommended that these matches would probably shoot at the same time as High-Power. 600 yd and 1000 yd are typical shooting distances. BOD recommendation.

Kyle Johnson, representative from the Appleseed Project was introduced. He explained that this program teaches the history of shooting with connections back to the Revolutionary Era and rifle marksmanship using calibers from .22 to 8mm. They provide their own instructors, RSO's for a 2-day weekend overnight camping event, which utilizes a 25m range. He is looking for GRRC to host such an event in September 2010. BOD recommended that the Range Scheduling would have to be completed due to the high demands on various ranges during the month of September. NAT until a determination is made as to whether there would be any open time to hold this event.

Stacy Tamulinas seeking BOD recommendation to submit a bid to hold the National PALMA Team try-outs at the range in late May 2010, which are dates that would coincide with the scheduled dates of the PALMA Wadekamper Match. BOD recommends that Stacy proceed with the submission of this bid.

Announcements

The easements for Williams Pipeline Co. that cross over the Harris range property have once again been cleared by Magellan. Negotiations reached a reduced rate (\$450 down to

\$256) to have their operator clear the undergrowth along all range roadways while they were doing the easements clearing. The work has been done, with a greatly improved visibility on roadways.

The Wolf Memorial tree has been replaced at a cost of \$90 with another species that is deer resistant and grows well in sandy soil conditions.

The roadways will be filled and graded with recycle material. Rick Keller will bring in 4 loads of material and will do the work.

The well has been shut off and drained as of 10-18-09. Bring your own water in for Fall and Winter events.

Payment of annual Campground fees – after discussion of status of late payers, the BOD recommends that if arrearages are paid in full that 2010 membership cards with entry codes will be withheld, and if not paid, owners will be asked to move out.

After much discussion about the continuance of cast-offs like televisions, mattresses, etc. being brought to the range and discarded, a Motion was made by John Nelson, second by Ray Hoyt to not allow ANYTHING to be brought to the Harris range for disposal. Motion carried. BOD recommends that you find your own method of disposing of discards in your local community. The range is not your garbage pit!

Four of the Jimmie's Johnnies have been winterized.

Ray Hoyt stated that his name still appears as the GRRC contact person on the MN DNR website. He re-affirmed that under no circumstances is the GRRC range available for zero-in of rifles. Shooters will have to find their own places that offer that service.

A reminder that Rick Keller has done the snow plowing of the range roadways in the past as given by Steve Shimek. Does any BOD member know of anyone else interested in providing this service? No response.

A Motion was made by Dave Secord with second by Ray Hoyt to adjourn at 9:18pm. Motion carried.

Respectfully submitted,
Laurie A. Pekarik,
GRRC Secretary

Vice President's Notes: Rick Loye

Fall work day? How about early Winter work day? That morning it was 24 degrees and the roads were icy. The conditions caused delays and it was after 10:00 before everyone showed up. But show up they did and we had 23 workers signed in. Of the 23, we had 8 guests and future members! GRRC must be doing something right, because over ¼ of our workforce were not even members yet!

Despite the blistery weather, much work was done. Brush was cleared by the campsite. Trees and deadfall were cut up on the 600 yard line. Dave Holland and his crew made new target frames and cleared brush on the east side of the KD range. Three generations of Nelsons, Marv, Westin and Walker, showed up with two bobcats and a dump truck. They dug out a berm and repaired roads all day. Mike Kaluza and his crew welded up target frames from the MP range. Dave Newell took photos as well as being my partner doing road repair.

All in all, the work day was a success and I would like to thank everyone who participated.

Shoot straight and good luck all you deer hunters!

Rick

Marv and Walker Nelson above, and Westin Nelson at right help out at the Fall Work Day: three generations helping GRRC!

President Tom Torborg called the meeting to order at 7:12 p.m., with a quorum present. The Vice-President led the membership in the Pledge of Allegiance, and a moment of silence was observed to honor absent companions and those serving in the military.

The Secretary's Report was published in the September and October newsletters. Motion made by Dave Secord seconded by Lance Wells to accept the Secretary's Reports as printed. Motion carried.

Executive Officer's Report: Bruce Aune – excused.

Chief Instructor's Report: Harry Crump – excused.

1st Readings: Peter Yovetich, Andover, MN, John Rice, Jr, Fridley, MN, Dean Gillette, White Bear Lake, MN, Linda Zahler, Brooklyn Park, MN and Terry McQuaid, Isle, MN

2nd Readings: Jason Maas, Mound, MN, Patrick Bump, North Branch, MN, Neil Skilola, Stacy, MN and Keith Anderson, Robbinsdale, MN.

Due to the lack of a quorum at the September GMM, these seven 2nd Readings held over from the September will be voted on tonight: Almir Lilic, Craig, Riis, Erick Snoenecker, Jacob Bump, Daniel Fry, Nathan Nechal and James Lantto. were excused from attending this meeting due to lack of a September quorum.

Acting Sergeant at Arms Lance Wells led the applicants, guests and non-members from the room.

Treasurer's Report: Motion made by Dave Newell seconded by Ron Schwachtgen to accept the Treasurer's Reports from September and October, 2009. Motion carried.

Motion made by Bruce Peglow, seconded by Don Mastro to accept the Second Readings as a group. Carried. Motion made by Dave Secord, seconded by Ray Hoyt to accept the group as members of GRRC. Carried. The new members, non-members, and guests were led back into the room. The Vice President welcomed 11 new members. See the Secretary after the meeting to pay your fees.

Committee Reports: Those committees not listed did not have a report.

Facility Management: Les Eckhardt –four tractors have been winterized down to -30 degrees. The well has been turned off and drained.

Finance: Ron Schwachtgen – Reminder that all discipline chairs need to get their budget figures in by 31 December 2009. The Budget Meeting will be in Feb 2010.

Membership: Laurie Pekarik - There are 370 Regular Members, 125 Seniors and 4 Honorary, 0 Out on Letters and 2 Deployed Military. There are 19 presently on the Waiting List. Adding the 11 new members tonight, there are 30 on the Waiting List.

Newsletter: Dave Newell reported that the newsletter postage continues to go down with the increase in e-versions of the newsletter. Solicited articles are requested via e-mail or snail mail. Everyone continues to comment on the awesome newsletter!

PALMA: Tom Torborg commented on the recommendation by the BOD to have Stacy Tamulinas present a bid to get the National PALMA Team to come to Harris for their try-outs in May 2010.

Good & Welfare/Correspondence: Sympathies are extended to the family of Michael Welle. A memorial and card were delivered to the funeral home.

Old Business:

Tom Torborg introduced Jay Eller as the new discipline chair for F-class. He wants to start a new league and have a couple of matches. Look at the NRA website for F-class requirements.

Ray Hoyt said that his name is still on the MN DNR website as the contact person for GRRC. He reminded everyone that the range is not open to the public for sighting in deer rifles. Blaze orange is required during hunting season if you are on the range.

Rick Loye report that the October 10 Fall Work Day was cold and blustery, but 23 brave souls ventured north to the range to work on roads, target frames and brush clearing. Thank you for your expertise, use of your equipment and your dedication to GRRC.

Larry Sparks spoke about the timber-harvesting project North and West of the KD range. Contact Larry if you are interested in forestry management and can help with this project.

New Business:

Tom Torborg asked for a volunteer to fill the vacant position of Sergeant at Arms, due to Kurt Borlaug's teaching at Dunwoody on our meeting nights. Kurt Nelson volunteered for the position.

Dave Newell nominated Bruce Peglow to a General Board of Directors position, to be voted on at our General Election in November 2009.

Discussion ensued regarding shooting at the range during hunting season. A suggestion was made to form a committee to establish clear hunting rules.

Announcements:

Rick Loye requested help with a sponsor for a new applicant. Check with Rick after the meeting to help.

The **Annual Election of Officers and Board of Directors** will be held at the next GMM in November. Consider running for a position.

There will be a Range Scheduling Meeting on Monday, October 25, 2009 at 1900hrs at Kraus-Hartig VFW in the Membership Room.

Board of Directors Meeting, Monday, November 16, 2009, 7p.m. Kraus-Hartig VFW. **Annual Election and General Membership Meeting, Tuesday, Nov 17, 2009, 7p.m.**, Kraus-Hartig VFW

Having nothing further, a motion was made by Bruce Peglow and seconded by Ray Hoyt to adjourn the meeting at 8:22 p.m.

Respectfully submitted,
Laurie A. Pekarik, GRRC Secretary

Prepare for Winter Birdfeeding: MN DNR

When switching from fall to winter feeding, you may want to place a group of feeders closer to the house. Tray feeders and fly-through feeders can be placed on a deck railing so they are easier to access when the snows accumulate.

As in fall feeding, use several feeder clusters of three to four feeders per cluster and a ground feeding site. Each cluster has a variety of feeder types that offer larger seeds, smaller seeds, and suet. Corn feeders are placed toward the back of the yard to accommodate squirrels, rabbits and pheasants.

If possible, feeders should be near the protective cover of pines, spruce or juniper trees so birds can rest in the shelter of those trees between visits to the feeders. The best feeder sites are downwind from the shelter provided by conifers, switchgrass plantings, cattail marshes or buildings. To avoid giving raptors or cats an advantage in catching birds, feeders should be at least ten feet from the nearest cover where such predators could hide.

If your feeders are within ten feet from heavy cover, encircle them with 2" x 4" welded wire fencing at least thirty inches high and about six to eight feet in diameter. This will help deter predators. If placing feeders closer to the house increases the number of bird/window collisions, try using stick-on window feeders, or move feeders to within one or two feet of the window. By reducing the distance between the feeder and the window, birds have less room to build up the speed that causes serious collisions.

- MN DNR

State Benchrest Championships at Harris

On Saturday and Sunday August 9 and 10 GRRC hosted the Minnesota State Bench Rest championship. These matches were attended by a season-high 25 shooters from Iowa, Michigan, Minnesota, Nebraska and North Dakota.

The Championships are sanctioned by the International Benchrest Shooters (IBS). Conditions over the 2 days varied from Saturday morning rain that almost turned the targets back into pulp to hot and sunny on Sunday afternoon. The wind was a modest factor throughout the match as you can see by the scores below.

We had great competition and an enjoyable weekend. Notable at this match was **Joe Thielen**, who is a Hornady engineer and team shooter, shooting a 2.559 Light Gun group. **Collin Mitchell**, a GRRC junior, won Match 7 Light Gun score.

Participants were: Brian Lukkar, Dave Holland, Greg Wahlstrom, James Kell, Ken Wilson, Lee Pecinorsky, Mark Van Donsel, Patti Van Donsel, Mike Wieland, Ron Genda, Steve Hoskin, Tod Soeby, John Rykhus, Jay Eller, Richard Erbele, Bill Behnke, Eugene T. Plante, Collin Mitchell, Gordon Mitchell, Randy Stevens, Lonnie Hummel, Joe Thielen, Eric Nyberg, Michael Gray and Jeff Adams.

There were three vendors present and we had demonstrations on an advanced PDA Ballistics program, brass prepping station, and Optical Boosters. We gave away over \$4,000 in prizes that were donated by the following nine suppliers: D&B Supply, E. Arthur Brown Company, Inc., Midway USA, Natchez Shooters Supply, Creedmore Sports, Eller Company (BulzEyePro Optics), Hornady Manufacturing Co, John Genda, Pacific Tool & Engineering and Sierra Bullets. We look forward to donations from these and other suppliers for our 2010 State Match. It's the clubs turn in the IBS 1000 yard rotation to host the Nationals, which are tentatively scheduled for September 1-5, 2010.

Thanks to GRRC's Dave Anderson for making a great lunch both days and an excellent breakfast. We'd also like to thank all the participants and the GRRC members that make these events possible. **-Mike Weiland**

Metal Target Safety on GRRC Ranges

Handgun Metallic Silhouette matches were fired on the High power range from 1979 to 1988. Shooters fired from the 200 yard firing line at banks of animal silhouettes located on raised stands at 50, 100, 150 and 200 meters. The ram bank was located tight against the main backstop and was as safe as can be expected with metal targets. The chickens, pigs and turkeys were likewise set on stands but in the open area in front of the pit. Bullets aimed at the chickens had to travel an extra 150 meters along the ground to reach the backstop. Pigs an extra 100 meters and turkeys an extra 50 meters. Ricochet control behind the chickens, pigs and turkeys was definitely not acceptable. It was clearly apparent after a couple of years of tolerating ricochets and target splash that a safer facility was needed for shooting on metal targets.

By the mid 80's it had also become obvious that the existing bench rest range needed to be upgraded. Black powder events had also grown to where they needed a suitable range. A number of proposals were kicked around. A proposal to increase the pistol range backstop and east side barrier to make the pistol range a little safer for metal targets was also briefly discussed.

After a year or so of study the design for the present MP/BP (Silhouette) range emerged. Dave Anderson and Dale Howe were appointed (or drafted) to head up the project. Bonds were sold in the fall of 1987 to finance the project. Earthwork on the project was completed in late summer of 1988.

It had been decided that the MP range would be the range at GRRC for metal targets. Some twenty plus years of use has shown the original design to be a good one!

The pistol range was left with a basic relatively low cost backstop improvement to improve its safety with strictly paper targets. Part of the rationale for not attempting to upgrade the pistol range to make it suitable for metal targets was that it would always be too close to the HP range. This was not a difficult decision to make because by this time GRRC already had 7 or 8 years of experience with ricochets and fragment spray from steel silhouette targets.

History seems to be repeating itself! The action arms discipline has gradually acquired a large collection of steel targets over the last few years. These targets are being used for both matches and individual (unsupervised) practice sessions on the pistol range. Unacceptable ricochets and target splash is obviously occurring on a regular basis. There are two relatively safe locations on the GRRC property for the use of these steel targets. The first choice would definitely be the MP range because it was designed for steel targets. The second choice would be tight up against the big backstop on the HP range. GRRC needs to address this situation BEFORE someone gets hurt either on or off the range.

-Mike Kaluza

DNR Season Outlook: Deer Hunting

Nearly 500,000 hunters took to the field November 7 for the opening of the deer season. Minnesota has about 1 million wild deer and plenty of opportunities for those deer hunters. In a historical context, too many deer were taken during the 1960s and rebuilding of the deer herd began in 70s, 80s and 90s. Now DNR is managing the herd on population goals based, in part, on public input.

As a result, the harvest peaked in 2003 at 290,000 during a time of liberal hunting regulations. The DNR has issued fewer either-sex permits this year than it did six years ago, yet the harvest will likely be similar to last year - the eighth-highest harvest on record.

Safety first

Putting safety first is the best way to ensure an enjoyable and successful hunting trip. Double-digit hunting fatalities were the norm in Minnesota during the 1950s and 1960s with a high of 29 fatalities in 1961. But with the help of mandatory hunter education classes, that average has been greatly lowered.

Always remember to:

- * Point the muzzle of your firearm in a safe direction.
- * Treat every firearm with the same respect you would show a loaded gun.
- * Be sure of your target and what is in front of and behind your target.
- * Unload and safely store firearms when not in use.
- * Handle firearms and ammunition carefully.
- * Never climb a fence or tree, or jump a ditch or log with a loaded firearm.
- * Carry your firearm safely, keeping the safety on until ready to shoot.
- * Never point a firearm at anything you do not want to shoot.
- * Don't drink alcohol or take mood-altering drugs before or while handling firearms.
- * Be aware of changing weather conditions.

Follow and respect Minnesota's trespass law

No one may enter legally posted private land for recreation use without permission. The vast majority of hunters follow this law but hunter trespass on private property and agricultural land are among the top complaints received by conservation officers each year. Landowners who encounter a trespasser, should not confront them. Instead, they should contact a conservation officer, the Turn-In-Poacher hotline at 800-652-9093, or a local law enforcement agency. For more information, visit the DNR <http://www.dnr.state.mn.us/>

Legislative Report: Steve Marden

Taken from the GRRC Website: Legislative Department

BELLEVUE, WA – The Second Amendment Foundation today joined with the Montana Shooting Sports Association in a federal lawsuit filed in Missoula to validate the principles and terms of the Montana Firearms Freedom Act (MFFA), which takes effect today, Oct. 1, 2009.

Lead attorney for the plaintiffs' litigation team is Quentin Rhoades of the Missoula firm of Sullivan, Tabaracci & Rhoades, PC. The MFFA litigation team also includes other attorneys located in Montana, New York, Florida, Arizona and Washington.

"We're happy to join this lawsuit," said SAF founder Alan Gottlieb, "because we believe this issue should be decided by the courts."

"We feel very strongly that the federal government has gone way too far in attempting to regulate a lot of activity that occurs only in-state," added MSSA President Gary Marbut. "The Montana Legislature and governor agreed with us by enacting the MFFA. We welcome the support of many other states that are stepping up to the plate with their own firearms freedom acts."

The MFFA declares that any firearms made and retained in Montana are not subject to any federal authority under the power given to Congress in the U.S. Constitution to regulate "commerce ... among the several states." It relies on the Tenth Amendment and other principles to exempt Montana-made and retained firearms, accessories and ammunition from federal regulation. Marbut's group advises Montana citizens not to manufacture an MFFA-covered item until MSSA is upheld in court.

Earlier this year, Tennessee passed similar legislation and lawmakers in 20 other states have indicated that they will introduce MSSA clone legislation, Marbut said. Information about the Firearms Freedom Act movement is being accumulated and made publicly available at firearmsfreedomact.com.

MSSA is the primary political advocate for Montana gun owners. It can be found at mtssa.org.

The Second Amendment Foundation (www.saf.org) is the nation's oldest and largest tax-exempt education, research, publishing and legal action group focusing on the Constitutional right and heritage to privately own and possess firearms. Founded in 1974, The Foundation has grown to more than 650,000 members and supporters and conducts many programs designed to better inform the public about the consequences of gun control.
